officials.

The plan, in substance, is that the state cancel its contracts, totalling approximately \$5,000,000, for work still to be done at the Brandon road and Dreeden island sections of the channel and turn the work over to the federal government. Under this arrangement, which it is believed would be practicable, the state then cou'd use the \$5,000,000 for bridge reconstruction and the whole project would be finished within the two year limit.

Ruling Hits Appropriation.

Ruling Hits Appropriation. The proposal for solving the water-way problem under the proposal as outlined was made yesterday after a day of gloom which followed initial jubilance over Washington announcements that the Heaver administration has determined to proceed immediatehas determined to proceed immediately with the waterway project and is willing to finish dredging the Illinois channel if the state will remove the obstructing bridges. The gloom was occasioned by a subsequent statement from Attorney General Oscar Carlstrom that the state cannot legally appropriate the \$2,500,000 or \$3,000, 000 for the bridges.

Citing a provision in the constitution forbidding legislative appropriations for the construction of canals, Mr. Carlstrom said:

isting bridges, serviceable at present, is occasioned by the construction of

What the Situation Is. The situation thus presented was

this:
The federal government, under its established policy, cannot and will not build bridges, holding that it is a state function to remove obstructions to navigation. The state, on the other hand, cannot under its constitution appropriate funds for new bridges which in reality would be appurtenances to a canal. The state's \$20,000,000 bond issue for the waterway is exhausted, save for that part still in be spent on the Dresden island and

Lillian De King by an Aurora dry raider.

Coe Tells Business Men

Declaring himself undismayed at the forthcoming investigation, Prose-cutor Carbary announced last night that he plans hereafter to invoke the state prohibition law against liquor buyers as well as bootleggers. The first defendant under his new policy, Mrs. Helen Ambrose, in whose Eligin hotel a gallon of liquor was found,

A total of \$6,720,000 is to be spent by the state on the Brandon road contract, which provides for a lock, dam, and retaining walls. The sum of \$2,075,000 is to be spent at Dresder island for a lock and dam. Included in the Brandon road total is approximately \$3,000,000 for bridges, which would have to be subtracted, leaving about \$5,000,000 free for the remainder of the bridge work if the federal government took over the lock, dam, and retaining wall construction.

And your investment in a home in Skokie Ridge, is not a matter of consideration for yourself alone. You owe such a home to your family —you owe it to your children, that they may grow up in healthful, beautiful surroundings, find "home" a loved spot and enjoy the benefits of good schools and fine neighborly friendships.

The beauty and attractiveness of Skokie Ridge cannot be pictured adequately by words—you must see its large number of century-old trees, its sloping hillsides from 60 to 110 feet above Lake Michigan, its unusual vistas. Then you'll realize—then you'll feel the urge. Skokie Ridge is easy to get to—use the map below as a guide. ### CHINESE QUELL NAVAL MUTINY WITH AIRPLANES

Nanking Rushes Troops

to Canton's Aid.

BY JOHN POWELL.

SHANGHAI, May 10.—Aithough Canton is almost entirely surrounded by hostile Ewangsi or Cantonese forces whose attitude is uncertain, reports here tonight indicate that unless the Ewangsi forces not speedly their chances for the capture of the city will dade quickly. Reinforcements arrived this afternoon from central China and sunboats reached here from Nanking and are now lying below the city elocking possible escape of rebel guncoats which have taken shelter in the dijacent foreign concession of Sha-

Chinese papers print reports from Nanking stating that Gen. Chiang Kai-shek is rushing a large force by heat to Canton and in the event Canton holds out until May 15 there will be sufficient troops in the Canton area to control the situation. Gen. Chiang also stated that Hunanese troops under command of Gen. Ho Chien are new crossing the Kwangsi border, which is likely to force the Kwangsi withdrawal from the Canton district.

Planes from Rebels.

Owing to censorahip, direct reports from Canton are not available, but THE TRIBUNE correspondent in Canton this morning gives a thrilling account of China's first use of airplanes against a disloyal section of the navy stationed in the Pearl river, the report stations.

"About 10 o'clock a number of Cantonese airplanes appeared over Pakhotting from the direction of Macao
forts and began dropping bombs on
the rebel ships, while the Cantonese
opened fire from both sides of the
river with inachine guns. Although
most of the bombs missed their mark
one is thought to have scored a hit,
causing the rebels to anchor in the
adjacent foreign concession of Shameen, apparently seeking the protec-

tion of the fereign area.

"As a result of the airplane attached disloyal Admiral Chan Chail deserted and fied to Hongkong, enabling the Cantonese Gen. Chang Chi-tang take over control of the navy. It is reported here that the Canton air forowas under command of Mai, Chang Wei-chang, the Chinese Lindbergh who recently completed a pioneering flight throughout China in the Safri of Canton, a duplicate of Lindbergh's

### SHALL GERMANS JOIN U. S. PARADE? OPINION DIVIDED

Whether the 150 Chicago members of the League of German World War-Veterans will march in the Memorial day parade on May 30 has not yet been decided by the Memorial day committee, according to George Kellogs, chairman of the Cook county council of the American Legion, who is also chairman of the committee.

Mr. Kellogg refused to commit himself on the issue, which was brought to a crisis Thursday night when two members of Chicago Chapter No. 2, Disable American Veterans, appeared at a meeting of the German veterans and asked them not to participate in the parade.

of the American Legion, stated yesterday that opinion in the Legion is
sharply divided on the question, and
inasmuch as Memorial day is a day
of honor for American dead, there is
some question as to the fitness of the
leaiser's veterans participating in the
event. He does not believe that an
official invitation to march has been
given the German veterans this year.
Meanwhile 1,200 members of the Disabled Veterans' post No. 2, meeting
last night, voted unanimously to continue their stand against the participation of the Germans. E. F. Obril,
commander of the post, said that he
saw no place for them in a "purely
American memorial parade." The resolution of protest will be forwarded to
Gen. James E. Stuart, grand marshal
of the parade.

had not amounted to more than 5 or 5 per cant and that during the last two or three years it had been necessary to pay dividends out of accumulated surplus. Besides Representative Stafford, a number of others expressed dispurposed of the sugar rates.

Representative Frank Crowther [Rep., N. Y.], a member of the ways and means committee, aided Representative Timberlake in defending the increase in sugar duties. Mr. Crowther asserted that evidence before the committee showed that the price of sugar in the United States is 3 cents a pound less than in any other principal country of the world and that most countries maintain higher duties.

cated that he would join with those seeking a duty on hides. Demand for this was made by Representatives C. D. Hudspeth [Dem., Tex.] and T. D. McKeown [Dem., Okla.]. Representative McKeown, who announced himself as a protectionist, said that there should be a duty on petroleum as well as on hides and that higher rates should be provided on jute products for the protection of cotton growers and manufacturers.

Representative William P. Conner, Jr. [Dem., Mass.] asserted that un less a duty is imposed on shoes the city of Lynn, Mass., now boasting 100,000 population, would be wiped ou within five years. Representative Henry W. Watson [Rep., Pa.] of the ways and means committee defended the duties proposed on cement and brick.

WASHING ION.—Secretary Stanton reported to Maj. Gen. Dix that a dispatch from Gen. Sherman in northern Georgia states Sherman's army is fighting for possession of Rocky Ridge and that Gen. McPherson and Gen. Logan took Snake Creek Gap and were seven miles from Resaca, about fifteen miles south of Dalton, on May 10. Gen. Thomas had forced the rebets from Tunnel hill and they had taken a strong position at Buzzard roost. Probably a great battle is in progress in that section.

Gen. Butler reported from his headquarters near Bermuda Head that Gen. Kauts with 3,000 cavalry had cut Beauregard's force at Petersburg in two by burning the railroad bridge over the James river from that place to Stony creek. Beauregard, with a large portion of his army, was left south of the cut in the railroad. Butler reports: "That portion which reached Petersburg under Beauregard I have whipped today, killing and wounding many and taking many prisoners after a severe and well contested fight."

### PHENOMENAL PROFITS FOR **REALTY BUYERS**

Well-situated vacant property in Chicago has never failed to return good interest on the money invested. Occasionally stories are heard of outstandingly big profits that seem almost unbelievable. For instance, Business Lot 18, Block 19, in Harmon's 'Englefield' was purchased in 1917 for \$1,490. Its valuation, according to the 1928 edition of Olcott's Blue Book of Chicago Land Values, was \$15,000. This represents a total increase of Land Values, was \$15,000. This represents a total increase of 900%, or a yearly average increase of 82%. Of course, this is an unusually large return, but it is unusual only to those not familiar with the history of properties marketed by the Harmon National Realty Trust. This concern's books reveal profit stories that show the reason for concern's books reveal profit stories that show the reason for their slogan, "A thousand times in a thousand our customers' land shows increases." A page chosen at random from the ledgers on "Beverly Hills," for instance, shows total value increases running from 130% to 697%. With a record like this, it is no wonder that keen investors watch eagerly for new Harmon "Forecasts" for subdivision property they are developing.

Good Morning!

A city hath many voices and they do not ALL speak of gangland. So, this title should read with an "A" instead of a "The."

The story is by Willard Mack who also directed the picture and in it acts one of the leading roles. It is an opus of crooks and cops whose activities circle round one Bobby Doyle, who, "framed" and sent to the Big House to do twenty years, escapes. who, "framed" and sent to the Big House to do 'twenty years, escapes, just as the picture opens, and, as per plan, makes straight for the flat of his sweetheart. It is thought by himself and the pal who has been instru-mental in getting him out of prison, that this would be the last place where the police would come for Doyle has only been gone a month. The engagement which mades these things possible was left in abeyance four hedic hours. After which . . Lord, smething must be done to the difference, Travers had thought. She was she now "Muriel"? RainorShine Tomorrow is the day of the sensational low priced sale of our new 87th Street subdivision, located in the path of Chicago's most tremendous development where fortunes will be made.

This great street runs from the Lake to the Western limits of the city, and beyond. It has been a street of big values, a street where fortunes have been made. It is an important FULL SECTION LINE with choice investment opportusties. Included in this tale is a double full section line corner, on 87th Street, three-quarters of a mile of full section line busess frontage, valuable residence corners and beautiful inside esidence lots. Don't miss the sale! Come out early! First ome will get the choice bargains. RAIN OR SHINE THIS SALE WILL GO ON.

As we have a large and well equipped South Side office at 00th St. and Western Ave. we are conducting this sale from nat office. Drive out south Western Ave. direct to property fice; or phene us for a car to take you and your family to ee this property as our guests

> Take a Taxi to the **Property Office** at Our Expense

Here's a real opportunity...Here's a bargain sale at almost unbelievable prices ... For years we have been noted for big volume sales at extremely low prices ... Our properties have been unique in values, have lived up to every promise we made for them ... This sale is one that we have had in preparation for months, and will top all our previous records for low prices and big values.

Here in this great South Side region is a property that is priced far below that obtained for other surrounding properties in years . . . Wide, paved highways tap this district . . . In the neighborhood are schools, stores, churches, banks, and public improvements ... The property is readily accessible by good roads from every part of Chicago and is bounded on two sides by full section line streets—important

main highways . . . On another side it is flanked by an important half section line which has always been remarkable for good real estate values.

Here you now have an opportunity to buy property at ridiculously low prices . . . Remember the tremendous development of Chicago, the World's Fair, the absorption of giant industries, all located on the South Side, the building of main paved highways to tab every part of this great region ... These and other features are building values into South Side properties that make real investments.

Come out Sunday, rain or shine, and attend the most spectacular sale we have ever conducted ... Bring your family and your friends . . . See the property . . . Check the location and the surrounding values ... You will be astounded at what we are offering to the public

These lots are all high, well lecated, are priced lower than any property in this district in many years. No lot be sold until Sunday, so com early a get a choice location.

Now if there is any One man in the World best qualified to select the One best Golf Shoe from the 26 different styles we brought to St. Andrews — that man is Andra Kirkaldy — 60 years a Golfer—for the last 19 years Professional at the Royal and Ancient Club of St. Andrews.

The Shoes were placed on a table with all price marks and labels removed—and when Andra Kirkaldy selected this Shoe he didn't know the Price nor the name of the Maker -but after carefully examining ever shoe, he picked up this one and said. "It's as good a shoe for golf as ever I saw. Ye canna neer these oot and they will hold the ground like a squirel on a tree."

We paid 65 shillings (\$15.60) for the original bench made model by Manfield—one of the best known makers of high-priced shoes in England—and we bought 40 pairs so that we could show one of Manfield's Originals and the Regal Reproduction, side by side, in 78 Regal Stores from Coast to Coast.

Andra Kirkaldy describes this model as a "Ski Front" Golf Shoe with Stud and Cleated Ribber Sole. This means a modified moceasin pattern -and we have exactly the same Design and identically the same Stud and Cleated Cord Hubber Sole.

The Upper Leather in the original is Martin's Genuine S otch Grain and our man went to Gli scow personally and saw Mr. Martin and purchased exactly the same Leather for the Regal Reproduction.

The original Manfield Golf Last is wide across the ball, with a broad shank and heel seat and we have duplicated the origin al Last exactly. ## S FORECAST IN

### Unfilled Tonnage Rises in April.

BY O. A. MATHER.

g are contained in the monthly reert on forward business issued by
be United States Steel corporation
seterday. However, there is little
respect of any serious letdown; in
het, there is every likelihood that the
houstry will be more than usually
citve during the summer.

Unfilled orders increased 17,045 tons
ast month, in spite of record producnon and virtually capacity mill operations. But the gain was less than
had been expected, in view of the
het that March witnessed an increase
of 266,377 tons; February, 34,854 tons,
and January, 132,775 tons. On the
other hand, the slight gain last month
was not uneatisfactory when conreasted with a decline of 463,073 tons
in April, 1928. In fact, last month
was the first April since 1922 to show
an increase.

The Steel corporation's unfilled or-ters on April 30 totaled 4,427,763 tons, gers on April 30 totaled 4,427,763 tons, compared with 3,872,133 tons a year ago. So there is an ample back-log to sustain satisfactory operations, even though the demand should sacken. In fact, with the summer months not far away, it is doubtful it the industry could maintain its recent pace, both because of the effect of hot weather on workers and the necessity for revamping plants.

April Estimates.

April shipments are estimated at close to 1,425,000 tons, or a daily average of 55,000 tons for the 26 working mays. Deliveries for March were shout 1,450,000 tons, or 56,000 a day; and for January, 1,200,000 tons, and 1,200,0

independent steel companies are ring almost equally with the corporation. The Gulf States impany reported that April was gest month in its history, with nis totaling 23,000 tons. But

### CTIVE SUMMER Sees Failure of Plans for Subsidizing Farm Crops

and wheat flour for export, the estimated saving being about 7 cents a bushel, with eastern roads already having announced their cooperation. In effect the carriers have done what the government would do under the debenture plan. They are subsidising wheat for export by granting the exporter 7 cents from their corporate pockets for each bushell.

The theory of the proponents of the debenture acheme is that American farmers would be able to sell in foreign lands at a price lower by the debenture payment than the price to the folks at home. The argument of the opponents is that the result in the case of world commodities would be a depression of the world price in stead of a rise in the domestic one.

If it be granted that the 7 cent ald from the railroads is of the same effective value—as seems apparent—there should have been a rise in wheat prices. The contrary was true. Liveripool on Thursday was reported wait at in 1928. Foreigners paid more than a coordance with the recent decision in 1928. Foreigners paid more than a coordance with the recent decision in 1928. Foreigners paid more than a coordance with the recent decision in 1928. Foreigners paid more than a coordance with the recent decision in 1928. there should have been a rise in wheat prices. The contrary was true. Liver-pool on Thursday was reported waiting for still lower prices on wheat. At Montreal the terminal elevators were filled, seventy-odd loaded vessels from the great lakes were unable, to discharge cargo, and thirty more were said to be en route to that port. Prices had fallen steadily there and in Chicago for several days.

hicago for several days. Only Ones to Profit. The only persons to gain from a freight rate cut limited to export grain

freight rate cut limited to export grain only are foreign buyers.

A somewhat broader view than is usually taken by advocates of artificial schemes to boost prices is necessary, in order to see why this is so. Wheat will do as an example. If the United States did all the exporting of this commodity, the debenture scheme probably would work. But Canada and the Argentine, and other lands have grain to sell abroad and they will meet any price they must. The seller with the lowest price establishes the market in a time of overproduction like the present, and the benefits flow to the buyer.

It is a curb on production that some of the best of the farm leaders want, Ithough they are not often definite as to how they can get one. There is no known way to make an

with it a danger of a continuous over-supply of food.

The United States has led in such power uses. Arthur Huntington has produced figures showing that in Italy produced figures showing that in Italy only nineteen horsepower are linked up with 100 agricultural workers, in France thirty-seven, in Germany, fity-five, and in the United Kingdom, eighty-eight. In America the horsepower per 100 farm workers was 205 in 1927. Incidentally the income of the workers corresponded with the power use, being six times as much for Americans as for Italians.

in a few years there will be serious conferences seeking a way to hold in each country.
